Adelaide Airport statement on security

Response to Sunday Mail article – 20 May, 2018

The safety and security of our customers is of utmost importance.

While we won't comment on specific incidents, we work closely with our security providers to ensure any identified issues are acted upon immediately and procedures put in place to ensure our security compliance remains at the highest level possible.

Security processes and procedures are regularly audited and tested. Where matters raised have required further investigation, further training is undertaken and improvements made. Aviation security is an active and ever-changing discipline, and we respond every day to the prevailing security environment in close co-operation with relevant regulatory agencies.

We are committed to ensuring the robustness of our procedures and regulatory framework for the continued safety and security of our customers.
