

Adelaide Airport Limited/Parafield Airport Limited are committed to the protection and improvement of the environment and in meeting this commitment AAL/PAL will:

- Ensure compliance with all relevant regulatory and other requirements and the Company's 5 year Airport Environment Strategy
- Seek to improve and prevent pollution of the environment
- Implement and maintain an Environment Management System to minimise the impact of our operations to air quality, noise, soil, groundwater and surface water.
- Employ a continuous improvement approach to environmental sustainability
- Promote environmental sustainability to customers, partners, tenants, contractors and suppliers
- Engage positively with the local community
- Monitor, audit and report on environmental performance against set objectives and targets
- Communicate the Company's environmental requirements to our employees
- Conform to the ISO 14001:2015 Environmental Management Standard.

Mark Young
