Adelaide Airport expands senior executive team

Adelaide Airport has announced the appointments of a new Chief Financial Officer and Executive General Manager, Corporate & General Counsel.

Both appointments follow the retirement of Managing Director, Mark Young and the subsequent appointment of former Executive General Manager Finance & Corporate, Brenton Cox as the new Managing Director.

Josh Golding has been appointed Chief Financial Officer. Mr Golding has been with Adelaide Airport since 2012, most recently as Corporate Finance Manager since April 2017, and with responsibility for sustainability and aeronautical commercial agreements. Prior to this, he held roles in Audit and Corporate Finance with KPMG. He has Bachelor of Commerce and Bachelor of Applied Finance Degrees with the University of South Australia, a Graduate Diploma of Applied Finance with Kaplan, and is a Member of Chartered Accountants Australia and New Zealand.

Alicia Bickmore has been appointed Executive General Manager Corporate & General Counsel. Ms Bickmore has been with Adelaide Airport since 2015 as Legal & Corporate Affairs Manager and more recently also as Company Secretary. Previous roles include Legal Counsel for Viterra Limited and lawyer with Thomson Geer Lawyers. She has a Bachelor of Laws and Legal Practice (Hons) and Bachelor of Behaviours Science from Flinders University, has completed a Masters of Applied Law and is a graduate of the Australian Institute of Company Directors. Alicia is also a Committee member of the Association of Corporate Counsel and the Adelaide Football Club Professional Standards and Integrity Committee.

Adelaide Airport Managing Director, Brenton Cox, said he was proud to see such well-earned internal succession - both appointees retain a significant level of knowledge and expertise within Adelaide Airport's senior management team.

"Both Josh and Alicia had proven strengths and experience when they joined Adelaide Airport, and they have since demonstrated considerable growth in their respective roles," Mr Cox said.

"In particular, they have excelled in their contributions towards managing the challenges of COVID-19, which has had a significant impact on our business over the past couple of years.

"I am confident they will play leading roles as we develop our aviation networks, and complete significant infrastructure projects such as the terminal expansion and Airport East transport, freight and logistics hub. Their customer service mindsets will help ensure that Adelaide Airport will continue to offer a seamless, connected and easy experience to the people of South Australia."
