Adelaide Airport passenger numbers continued to grow through the first quarter of Financial Year 2025 (FY25). Adelaide Airport welcomed more than 2.1 million passengers, representing a 1.5 per cent increase compared with the same quarter last year bolstered by capacity growth and new route offerings.

International passenger volumes continued their positive trend, exceeding those of Q1 FY24 by 1.0 per cent despite some reduced competition on the Bali market. Increased travel during the July school holidays contributed to the growth and overall capacity was also ahead of the previous corresponding period.

REX’s entrance into administration on 30 July 2024 has posed some challenges to the industry – however, domestic traffic still grew 1.6 per cent compared with the same quarter last year. The exciting introduction of Jetstar’s new domestic route to the Whitsundays Coast on 1 September 2024 expanded connectivity and travel options for passengers.

Looking ahead to Q2 FY25, Adelaide Airport is excited about the return of both Emirates and China Southern to South Australian skies.
