

Passenger Statistics

22 July 2025

Adelaide Airport grows to a record 8.7 million passengers in FY25

PAX (’000s)	Quarter to Date			Financial Year		
	Jun-25	Jun-24	Growth (%)	Jun-25	Jun-24	Growth (%)
Domestic*	1,874	1,854	1.1%	7,699	7,580	1.6%
International	276	235	17.2%	1,032	958	7.7%
Total	2,149	2,089	2.9%	8,731	8,538	2.3%

*Including regional

Financial Year 2025 set a record-breaking 8.7 million passengers — marking a 2.3 per cent increase over FY24. International traffic continued trending upward, with more than 1 million passengers travelling through the airport and outgrowing FY24 by 8 per cent.

In Q4 FY25, Adelaide Airport saw more than 2.1 million passengers passing through the terminal. This marks a 2.9 per cent increase in passenger traffic compared with the same period last year, driven by solid demand for international and domestic travel.

International traffic reached 276,000 passengers this quarter, reflecting a strong 17.2 per cent increase compared with the previous quarter. The growth was contributed to by Malaysia Airlines seasonal capacity boosts and Fiji Airways increasing services from two to three flights per week — adding 340 seats weekly. A key milestone was also achieved on 25 June 2025, with the launch of Indonesia AirAsia's service to Bali.

Domestic and regional saw 1.9 million passengers passing through the terminal — an increase of 1.1 per cent. Leisure travel played a key role in this growth, boosted by the April school holidays and Adelaide-based events like AFL Gather Round, which attracted strong visitor numbers. This level of growth was exceptional in the context of Adelaide's fourth largest domestic carrier, REX, exiting from the domestic market.

Looking ahead to FY26, Adelaide Airport is set to welcome the return of Cathay Pacific and Air New Zealand's Christchurch service, along with the launch of Qantas international flights to Auckland and United Airlines flights to San Francisco.
